

Parent Step-By-Step Guide: Install The BEE Suite Parent Portal

Last updated: July 20, 2026

Audience: parents and guardians whose school uses The BEE Suite.

TEAM SHARE SNAPSHOT - JULY 24, 2026 This copy was refreshed after production release 7e64b926. The release is live and verified, but it did not activate a ProCare import, billing, payments, invitations, communications, kiosk, or a wider school wave. Kokomo may continue its approved normal production use. Confirm the named school and module have a dated GO before treating a workflow as live.

- Your parent portal password.
- On your first visit, use the private one-time setup link from your school to create your password. The link expires after one hour and cannot be reused.
