

Teacher SOP - The BEE Suite

Last updated: July 20, 2026

Audience: teachers and classroom staff using The BEE Suite for attendance, daily reports, media, incidents, messages, and staff kiosk workflows.

TEAM SHARE SNAPSHOT - JULY 20, 2026 This copy was refreshed against the current application routes, role rules, module inventory, and July 20 production-readiness record. Kokomo may continue its approved normal production use. Any wider school rollout, parent invitation wave, kiosk activation, billing activation, payment activation, ProCare retirement, or store release remains separately approval-gated. Confirm the named school and module have a dated GO before treating a workflow as live.

Visual Overview

Use KIOSK_AND_AUTHORIZED_PICKUP_GUIDE.md for staff kiosk clock-in/out details.

Purpose

This SOP explains what teachers should do in The BEE Suite each day and when they should stop and ask a director for help.

Before You Start

Have these ready:

- Your BEE Suite username or work email.
- Your temporary password, if the director gave you one.
- Your 4 digit staff kiosk code, if your school uses staff clock-in/out.
- Your assigned classroom name.
- Your scheduled shift.

Generated teacher logins commonly use BusyBees as the temporary password unless the director tells you otherwise.

Login

1. Go to <https://thebeesuite.io/login>.
2. Enter your username or work email.
3. Enter your password.
4. Reset your password if the app asks you to.
5. Open the teacher or classroom view.

Ask a director for help if your login opens the wrong school, wrong role, wrong classroom, or another person's account.

Start-Of-Shift Checklist

1. Confirm your name is shown correctly.
2. Confirm your classroom is correct.
3. Review the child roster.

4. Check for custody, allergy, medication, or media restriction alerts.
5. Clock in through the staff kiosk if your school uses staff time tracking.
6. Tell a director immediately if your roster or schedule is wrong.

Do not mark attendance or write reports from the wrong classroom.

Attendance

Attendance must match the child's real classroom status.

1. Open your classroom roster.
2. Select the child or attendance action.
3. Mark the correct status: present, absent, sick, vacation, checked in, or checked out.
4. Save the update.
5. Confirm the child card or attendance list reflects the change.

Stop and ask a director before changing attendance for a child who is not assigned to your classroom.

Daily Reports

Daily reports should be accurate, timely, and parent-ready.

1. Select the correct child or report group.
2. Add meals, bottles, naps, diaper or potty entries, activities, supplies, mood, and notes as applicable.
3. Use individual child reports for child-specific information.
4. Use group actions only when the same entry truly applies to the selected children.
5. Review spelling, tone, and sensitive details before saving or sending.
6. Confirm whether the report is parent-facing before submitting.

Do not include another child's name or private information in a parent-facing report.

Photos And Media

1. Confirm the child has permission for the photo or media use.
2. Upload only classroom-appropriate media.
3. Add a short, parent-friendly caption.
4. Submit for director review if your school requires review.
5. Do not post or resend restricted media outside the app.

If a child has a media restriction, stop and ask the director before uploading.

Incidents

Incident reports must be factual and objective.

1. Select the correct child.
2. Confirm the classroom and date.
3. Choose the incident type.
4. Write what happened using plain facts.

5. Add action taken and staff notified.
6. Submit for director review.

Do not diagnose, blame, speculate, or make custody/legal conclusions in an incident report.

Messages

Use messages only according to your school's communication policy.

1. Open messages only for families connected to your classroom.
2. Confirm the recipient before sending.
3. Keep the message professional and specific.
4. Ask a director whether billing, custody, discipline, medical, or complaint messages should come from leadership instead.
5. Review any AI-suggested text before using it.

Offline Queue

If the tablet loses connection, The BEE Suite may queue actions.

1. Look for an offline or queued-action message.
2. Do not repeat the same action multiple times.
3. Keep the tablet open until connection returns.
4. Use sync or retry if the app provides that option.
5. Tell the director if queued actions do not sync.

End-Of-Shift Checklist

1. Confirm attendance is current.
2. Finish required daily reports.
3. Submit incidents for director review.
4. Confirm photos or media are submitted correctly.
5. Check for unsynced offline actions.
6. Clock out if your school uses the staff kiosk.
7. Tell the director about unresolved classroom, roster, parent, safety, or app issues.

When To Stop And Ask A Director

Stop before continuing if:

- Your classroom or roster is wrong.
- A child is missing or appears in the wrong room.
- Custody, allergy, medication, or pickup information seems incorrect.
- A parent asks about billing, legal, custody, or serious incident details.
- A photo includes a child with media restrictions.
- The tablet shows repeated sync errors.

- You accidentally entered information on the wrong child.
