

Parent Step-By-Step Guide: Install The BEE Suite Parent Portal

Last updated: July 27, 2026

Audience: parents and guardians whose school uses The BEE Suite.

TEAM SHARE SNAPSHOT - JULY 27, 2026 This copy matches the repository working-tree behavior reviewed on July 27, 2026. It does not claim that every documented capability is deployed or approved for every school. It does not activate a ProCare import, billing, payments, invitations, communications, kiosk, mobile-store release, ProCare retirement, or a wider school wave. Confirm the named school and each sensitive module have a separate dated GO before treating a workflow as live.

What You Need

- The guardian email address your school has on file.
- The first-login password included in the approved parent invitation from your school.
- A phone, tablet, or computer with internet access.
